

7 CYBER SECURITY AWARENESS HABITS

To stay protected from phishing and other cyber threats

1

SENDER

If you don't recognize the email sender, don't open the email.

2

SPELLING

Pay attention to the spelling of email addresses, subject lines and email content.

3

URGENCY

Be wary of emails that use urgent language and ask you to help out by transferring funds or sharing confidential information.

4

LINK OR BUTTON

Do not click on links from unsolicited emails.

5

CONFIDENTIAL INFORMATION

Never send confidential information in an email.

6

SECURE WEBSITE

When shopping online, always inspect the address bar and verify that the URL contains "https" or the lock icon.

7

SOCIAL MEDIA

Do not accept social media followers or friends from accounts that you do not recognize. If an account that you do not trust follows or friends you, block the account.
